DETAILED ACTION

This communication is in response to amendment filed 2/2/2007.

Response to Amendment

The amendments include:

Amended claims: 1, 14, 27 & 40

Canceled claims: 11, 24 & 37

Non-changed claims: remaining of 1-48

Allowable Claims: 1-10,12-23,25-36 and 38-48

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears on the attached sheet written by the attorney, Jason Chang dated May 3, 2007. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jason Chang (Reg. No. 58,092) on 4/25/07. The change consisted on changing "tax lot" to "lot" in every claim it appears. Jason Chang faxed this examiner amendment to Examiner Kirsten Apple's efax on 4/25/07 and are attached for the record.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The following is a statement of reasons for the indication of allowable subject matter: the prior art fails to teach or suggest the limitation of independent claims. The Applicant has claims

a method and system for evaluating multiple accounts for tax implications and savings based upon trading proposals.

Independent claim 1 discloses a method for generating a trading proposal based on at least a selection criterion to evaluate a lot of single securities across a plurality of investor accounts.

Independent claim 7 discloses a method computing gain/loss and tax liability information for each lot, applying at least one selection criterion for each plurality of investor accounts.

Independent claim 14 discloses an article of manufacture generating a trading proposal based on at least a selection criterion to evaluate a lot of single securities across a plurality of investor accounts.

Independent claim 27 discloses a system for generating a trading proposal based on at least a selection criterion to evaluate a lot of single securities across a plurality of investor accounts.

Independent claim 40 discloses a method for generating a trading proposal based on at least a selection criterion to evaluate a lot of single securities across a plurality of investor accounts.

The following prior art references have been deemed most relevant to the allowed claim(s):

Wellman (US Pat. 6,161,098) teaches a method to manage taxable events within a portfolio. The method is for multiple securities in one account not one security over multiple accounts.

Frank et al. (US Pat. 6,240,399 B1) teaches a system for optimizing investment location. This involves optimizing one investors ending after-tax asset accumulation, which is the ultimate objective of the investor.

Wellman (PCT WO 99/46658) teaches a method for managing a portfolio of securities on a cost effective basis. Giving control over the tax effect of purchases or sales of securities comprising the portfolio, including necessary information to manage unwanted taxable effects due to discretionary sales transitions.

Claims 1-10,12-23,25-36 and 38-48 are allowed because Wellman, Frank et al., and Wellman references as discussed above as the Closest Prior art of record fails to teach or suggest a method of **generating a trading proposal based on at least a selection criterion to evaluate a lot of single securities across a plurality of investor accounts**. In particular evaluating the one security over multiple investor accounts.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
